# Teaching Intertextuality through Wikipedia

With

## Charles Bazerman

Distinguished Professor Emeritus of Education at the University of California Santa Barbara, became interested in the pedagogy of intertextuality when he found out fifty years ago students were being asked to write about reading in courses across the university. At that time the research paper was the main vehicle for having students for engaging with intertextuality; now it is Wikipedia editing.

1pm PT / 4pm ET **Friday, May 1**

## Talk and pedagogy workshop
